Bill: OCI

OFFICE OF THE DD/I

17 March 1975

Note For: C/DDI Management Staff

Subject : SEA Military Analysis

The Director has approved our 13 March memo transferring the SEA Military Analysis account to OSR.

I suggested that it should be staffed as follows:

From OER: [redacted] 25X1

From OCI [redacted]

A clerical from OER should also go along.

These names are not sacred but make the most sense in ensuring that the new group has adequate expertise. I don't think we will have any problems with the OCI types. I think [redacted] and [redacted] may end up recommending that [redacted] take the place of [redacted] That would probably be OK with me. I don't know, but I would assume [redacted] would be the head of this new group. How do we straighten all of this out?

You ought to start whatever paper work is necessary in terms of a formal statement of responsibilities, missions and functions, and the table of organization and identification of the space this group will occupy in order to be ready by 1 July.
